

CHAPTERS AND REVIEWS

Small, G. and Greenfield SA (2015) current and Future Treatments for Alzheimer's Disease. The American Journal of Geriatric Psychiatry 09/2015; DOI: 10.1016/j.jagp.2015.08.006

Greenfield SA (2013) Discovering and targeting the basic mechanism of neurodegeneration: the role of peptides from the c-terminus of acetylcholinesterase Chemico-Biological Interactions. 2013 May 25;203(3):543-6. doi: 10.1016/j.cbi.2013.03.015. Epub 2013 Apr 3.

Greenfield SA (2012) The Singularity: Commentary on David Chalmers. Journal of Consciousness Studies 19, No. 1-2, 2012, pp. 112-118.

Greenfield SA, Zimmermann M. and Bond CE. (2008) Non-hydrolytic functions of ACHE: The significance of C-terminal peptides. Federation of European Biochemical Societies. FEBS Journal 275, pp 604-611.

Greenfield SA (2006) New Language for the New Medium of Television. In Re-thinking TV Perspective on Neuroscience. Editor Beverley Clarke (Premium Publishing).

Greenfield SA (2006) Preface to International Journal of Psychophysiology 62, pp 352.

Greenfield SA (2005) A peptide derived from acetylcholinesterase is a pivotal signaling molecule in neurodegeneration. Chemico-Biological Interactions Vol 157-158, pp 122-218.

Greenfield SA and Collins T (2005) A neuroscientific approach to consciousness. Progress in Brain Research 150, pp 11-23.

Greenfield SA (2005) Biotechnology, the brain, and the future. Trends in Biotechnology 23, pp 34-41 (Trends in Biotechnology's fifth most downloaded article between June 04-June 05)

Greenfield SA (2003) Brain function: the interaction between genes and environment. Archives of Disease in Childhood, Vol 88, pp 954-5.

Greenfield, SA (2002) Mind, brain and consciousness. The British Journal of Psychiatry Vol. 181, pp 91-93

Greenfield, SA (2001) Altered states of consciousness. Social Research Vol. 68 No 3, pp 607-626.

Greenfield, SA (1999) Biomedical research: crossing the 1st Rubicon. Lancet Dec 99 Iss 354, pp 60.

Greenfield, SA (1998) A Rosetta stone for mind and brain? In Toward a science of consciousness II: Second Tucson Discussion and Debates: Part IV: Neural Correlates of Consciousness, pp 231-236.

Greenfield, SA (1998) Brain drugs of the future. *BMJ*, Vol. 317, pp 1698-1701.

Greenfield, SA (1998) A non-cholinergic function for AChE in the substantia nigra. In *Structure and function of cholinesterases and related proteins*. Eds Doctor, BP, et al. Plenum Press, New York, pp 557-562.

Greenfield, SA (1998) Future developments in the molecular biology of the brain. *Essays in Biochemistry* Vol 33 1998 Ed S J Higgins published by Portland Press Ch 14, pp 179-191.

Greenfield SA (1997) Approaching Consciousness. In *Communication and Cognition* Ed: Myin E. Vol 30 No 3/4.

Greenfield, SA (1996) Non-classical actions of cholinesterases: role in cellular differentiation, tumorigenesis and Alzheimer's disease: A Critique. *Neurochem. Int.* Vol. 28, pp 485-490.

Greenfield, SA (1995) A non-cholinergic function for acetylcholinesterase: In 'Cholinesterases'. Eds: Quinn DM, Balasubramanian AS, Doctor BP and Taylor P. Plenum, pp 415-421.

Greenfield, SA (1995) Novel neuronal mechanisms in the normal and Parkinsonian substantia nigra. In *Adaptation and Ageing*. Academic Press Ltd, pp 203-214.

Greenfield, SA and Smith, AD (1994) *Neuroscience. The Oxford Medical Companion*. Eds: Walton, J, Baroness, JA and Lock, S OUP, pp 634-639.

Greenfield, SA (1992) Acetylcholinesterase as a modulatory neuroprotein and its influence on motor control. In 'Multidisciplinary Approaches to Cholinesterase Functions.' Ed: Shafferman A, Plenum Press, pp 233-242.

Greenfield, SA (1992) Cell death in Parkinson's disease. *Essays in Biochem.* 27, pp 103-118.

Greenfield, SA (1991) A non-cholinergic function for AChE in the substantia nigra. In 'Cholinesterases'. Eds: Massoulie J, Bacou F, Barnard E, Chatonnet A, Doctor BP and Quinn DM American Chemical Society, pp 366-370.

Greenfield, S. A. The Enchanted Loom - Chapters in the History of Neuroscience - Corsi, P. *Nature* 353, 221-222 (1991).

Greenfield, SA (1991) A non-cholinergic action of AChE in the brain: from neuronal secretion to the generation of movement. *Cell. and Mol. Neurobiol.* 11, pp 55-57.

Greenfield, SA (1986) Release of acetylcholinesterase from nigro-striatal neurons. In 'Cellular Biology of Ectoenzymes'. Eds: G.W. Kreutzberg, M. Reddington and H. Zimmerman, Springer-Verlag.

Greenfield, SA (1985) The significance of dendritic release of transmitter and protein in the substantia nigra. *Neurochem. Int.* 7, pp 887-901.

Greenfield, SA (1984) Can enzymes released from the nigro-striatal pathway act as neuromodulators? In 'Basal Ganglia: Structure and Function'. Eds: J.S. McKenzie, R.E. Kemm and L.N. Wilcock, Plenum Press: New York, pp 319-332.

Greenfield, SA (1984) A novel function for acetylcholinesterase in nigrostriatal neurons. In 'Cholinesterases: Fundamental and Applied Aspects'. Eds: M. Brzin, T. Kiauta and E.A. Barnard, Walte de Druyter: Berlin-New York, pp 289-303.

Greenfield, SA (1984) Acetylcholinesterase may have novel functions in the brain. Trends in Neuroscience 7, No 10, pp 364-368.
